

ALL FISH FROM
**BRITISH
WATERS**

Golden
UNION

NEVER FROZEN
**ALWAYS
FRESH**

The fish we have sourced for you has come from sustainable British waters. Our Cod and Haddock are direct from Peterhead in Scotland, fished by Scottish boats who belong to the Responsible Fishing Scheme, which is backed by Seafish UK. Peterhead Cod and Haddock are the freshest and finest in the North Atlantic. We also use the Ports of Grimsby and Newlyn for all our other fresh fish.

The thing that links all our product together is our smooth crispy beer batter. Hand-made fresh throughout the day to a recipe we've perfected.

Our supplier hand picks our chipping potatoes for us every week. We only use Grade one potatoes from the best of British farms, coming out of the soil of the Fenlands in East Anglia.

We aim to bring you the purest tasting fish and chips. Our specially blended mix of two oils is the result of years of taste testing. We also completely renew the oil in our fryers at least four times a week - nobody else can match that.

FISH

all served with homemade Tartare sauce
